REINVENTION OF KNOWLEDGE : *LOCAL-GLOBALLY TRANSFORMATIONAL INTER-INSTITUTIONAL COMMUNIVERSITY*

Knowledge has been fundamentally reinvented a number of times in the history of the West. In each case one new institution has replaced the knowledge based institution that preceded it. Today the laboratory and the research university still stand as the most evolved and overlapping intermeshed institutions of knowledge. But since the central dynamic in the history of knowledge has been for a single institution to supersede its predecessor, *the time is ripe for reinvention, for us the Communiversality.*

Wolverton & McNeely : Reinvention of Knowledge

**SOCIAL MOBILISATION:
PROMOTING ECONOMIC IMPROVEMENT THROUGH
ENHANCING COMMUNITY SPIRIT**
SHOAIB SULTAN KHAN AND AMJAD SAQIB

What is it then that makes social mobilisation unique? At the same time, as economic improvement is promoted, so is community spirit. What is known as the rat-race in the West where everybody is out to fill their own pockets as their top priority is the very antithesis of social mobilisation where every pocket is filled, where people will work together for group gain that ultimately benefits individuals too.
